Electronics Cleaner Degreaser PF

Extra strength, safe to use on plastics

Electronics Cleaner Degreaser PF is a fast-drying, one-step precision cleaning and degreasing agent safe for most plastics. Formulated with very low surface tension, this high-pressure aerosol cleaner flushes even hard-to-reach areas clean without leaving residual film.

The short residence time allows this powerful universal cleaner to evaporate instantly, leaving surfaces free from insulative contaminants.

Ideal for the following applications:
- Removing oils and hydraulic fluids form mechanical assemblies
- Cleaning handling soils from circuitry before reassembly
- Removing grease from assembly lines
- Test / measurement devices; switches; fiber optic cable splices
- Control systems; precision devices; stencils and screens

Directions:

Spray form a distance of 4-6 inches from surface to clean. Apply cleaner to item from tip to bottom, allowing liquid to flush away flux residues, dirt, and oil. Use extension tube for a more precise and controlled application. Special valve allows for 360º spraying.

For industrial use only.
Read MSDS carefully prior to use.
